

Clamp Support

JKPANELMOUNTTJ

- Solid Fixation
- Good-looking Application
- Easy integration
- High quality stainless steel

With this clamp solution, it is easy to integrate your capacitive device into any machine or server door. It will make sure there is a solid fixation and good-looking application for any place. It makes the device IP65 proof, due to the perfect fit.

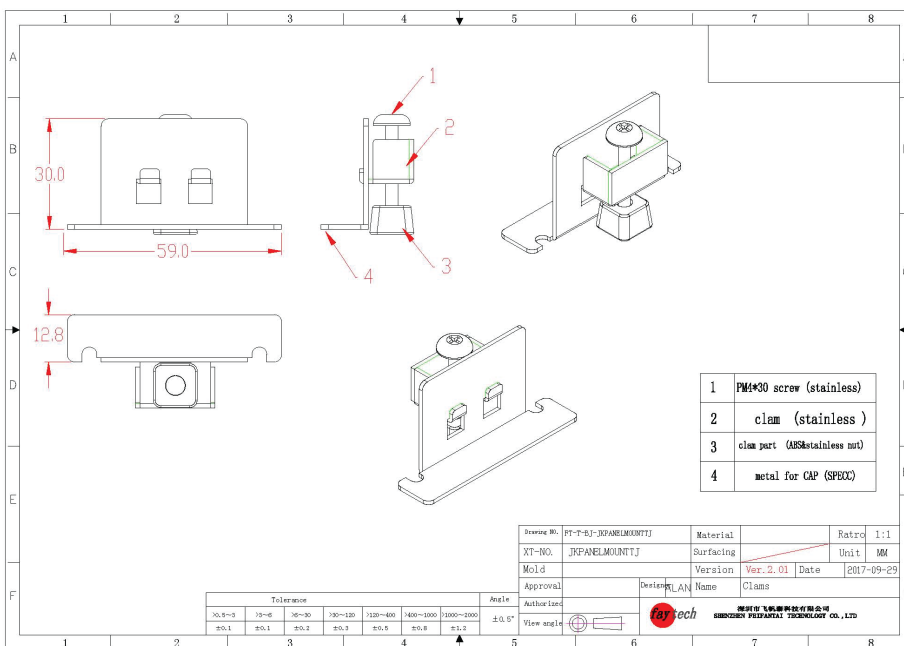

It works on nearly all the capacitive devices from faytech (see table in specification sheet).

Material	PM4*30 screw (stainless)
	Clamp (stainless)
	Clamp part (ABS & stainless nut)
	Metal for CAP (SPECC)

Mounting Instructions

Step 1:

Screw the M4 x 30mm pan-head screw into the thread of the retaining clamp.

Step 2:

Now screw the plastic damper to the M4 screw.

Step 3: (optional)

Mount the retaining bracket with the 2x 6mm M3 screws provided.

Info: Only for standard products without openings.

Step 4:

Now insert the device into the cut-out provided for this purpose.

Step 5:

Now fasten all holding clamps by screwing on the M4 x 30mm screw.
